

To Whom It May Concern:I do not see the harm in XM Radio. Less Talk and more music.

Especially for children. I am so grateful for the radio Disney and XM kids. Why does it seem that The National Association of Broadcasters and other politics think they can control our lives?

But yet there is much more to worry about then what people of the United States listens to or what we watch on television. I have kids (18, 16, and a new born) I know what is appropriate and what is not appropriate for my kids. I do know how to change a channel if I do not agree with what is on either the radio or television.

I know my opinion does not matter to these people; they do what they want and who cares about other people. I really want them to know that I live in America not in Russia or any other continent. The Land Of the Free.
